Biography

Different Jane

Oklahoma’s newest gritty Rock n Roll Band

Different Jane, newly formed in 2021, is a no frills American rock n roll band from Norman, Oklahoma.

With inspirations rooted in 60’s garage rock, UK indie, and punk, the band’s music is a mix of energetic guitar and sincere “say it like it is” lyrics.
The band centers around Ian Roberts, writer, vocalist, and guitarist who is best known for his band “Regg” who played with artists such as G-Eazy and Chief Keef.
Different Jane’s sound has been compared to bands such as The Strokes, Arctic Monkeys, Kings of Leon, and other influential artists.

Different Jane’s 6 track Debut Album “Rooms” will be releasing September, 15th 2022 to all major streaming platforms. The album was engineered by Grammy winning producer Trent Bell, known for his work with artists such as The Flaming Lips, Starlight Mints, and Watermelon Slim who’s record “The Wheel Man” won blues record of the year.

From the beginning of the project, the concept was to create a record that captured the raw essence of rock n roll and carry it into the future. As such, it was recorded using old school techniques coupled with modern gear. The result is an album that has the energy of a live show, sincere vintage qualities, and an inherent soulfulness.
